Standard paper test

Paper	Weight
DERWENT PASTEL PAPER UK.	200 gsm.

1 Simple Layering - building up depth of colour with successive layers
A build up of six layers of Faber Castell Polychromos (Oil based)

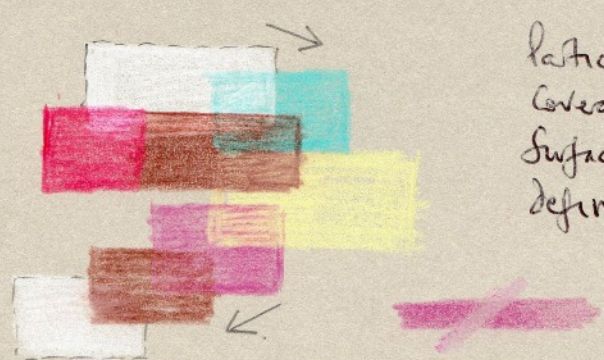

1 2 3 4 5 6 6 + Zet-Et Solvent

2 Overlapping layering showing ability to cover and also take a heavy final layer
Derwent Coloursoft (Wax based)

Comments
Takes colour well.
Smooth surface.
gives good detail.
Lower eraser works quite well despite wax firmness.

3 Overlapping layering with a selection of colours (Including white)
Caran d'Ache Pablo (Oil based)

Particularly good coverage with a smooth surface to give good definition.
Easy with lower eraser reasonable

With apologies to our USA based readers - Prismacolor has not been used for these tests as the site is UK based and Prismacolor pencils are not easily available in the UK
